

Whole Maize

Processed whole yellow dent type maize selected from hybrids of known proven performance in the manufacture of corn chips and other corn based prepared snack foods.

GMO Free

All maize products produced by Corson are not derived from genetically engineered or genetically modified maize crops. The grain used in the production of the products are grown from hybrid maize seed developed using traditional plant breeding techniques. New Zealand law prohibits the production of GMO maize.

Food Safety Compliance

Corson operations are carried out under a Food Safety Plan which has HACCP monitoring and GMP as central to functioning of the programme. Corson complies with all sections of Food Standards Australia New Zealand.
