

## Semolina

A coarse yellow grit suitable for use in the manufacture of extruded snack foods, breakfast cereals, bread and brewing grits. 100% maize (Zea mays).

### GMO Free

No maize products produced by Corson are derived from genetically engineered or genetically modified maize crops. The grain used is grown from hybrid maize seed developed using traditional plant breeding techniques. New Zealand and Australian law prohibits the production of GMO maize.

### Food Safety Compliance

Corson operations are carried out under a Food Control Plan which has HACCP and GMP as central to functioning of the programme. Corson complies with all sections of Food Standards Australia New Zealand.

### Specifications

Moisture	10 – 15 %
Oil	4 % max
Bulk Density	Typical 650 g/l uncompacted
Shelf Life	Up to 12 months under best practice storage conditions
Allergens	Product is free of Multiple Serious Allergens
Gluten	Product is free of gluten

### Typical Granulation Profile

Sieve Size	Range %
1.4 mm	10 % max
1.0 mm	45 – 75 %
850 µm	10 – 35 %
500 µm	10 – 25 %
< 500 µm	5 % max
