

Whole Maize

Processed whole yellow dent type maize selected from hybrids of known proven performance in the manufacture of corn chips and other corn based prepared snack foods. 100% maize (Zea mays).

GMO Free

No maize products produced by Corson are derived from genetically engineered or genetically modified maize crops. The grain used is grown from hybrid maize seed developed using traditional plant breeding techniques. New Zealand and Australian law prohibits the production of GMO maize.

Food Safety Compliance

Corson operations are carried out under a Food Control Plan which has HACCP and GMP as central to functioning of the programme. Corson complies with all sections of Food Standards Australia New Zealand.

Specifications

Moisture	14.5 % max
Broken / Chipped Kernels	5 % max
Diseased / Discoloured	3.5 % max
Count	120 – 180 kernels/50 g
Bulk Density	Typical 65 – 85 kg/hl uncompacted
Shelf Life	Up to 12 months under best practice storage conditions
Allergens	Product is free of Multiple Serious Allergens
Gluten	Product is free of gluten

Packaging Options

New Zealand	Australia
650 kg Bulk bags	1 Mt Bulk bags
25 kg Polypropylene bags	Bulk
